Journey of Care

IRT applies an innovative approach to residential aged care. Our Journey of Care is a new model of care that personalises the care experience for every resident. We recognise that every care journey is unique and honour the individual diversity of each resident. Our specialised model of care ensures residents age in the right place with the right care needs within our aged care centres.

The IRT Journey of Care incorporates two key elements, neighbourhoods and specialist programs.

Neighbourhoods cater for residents with similar care needs, allowing for staff specialisation, and tailored design of the physical environment and equipment. They allow families to see their loved one ageing in the right place with the right care needs.

Our specialist programs support resident wellbeing at each stage of their care journey. By working in partnership with leading Australian researchers and health experts, we enrich residents' quality of life, when they need it most.

The Namaste Program is a specialty program offered at selected IRT care centres, including IRT Moruya. It is a unique sensory-based care experience where residents are cared for by trained staff in a purpose-designed room using therapeutic touch, aroma-therapy, music and sensory experiences.
